

4 Ways to Save Money on Your Prescription Drug Costs

Everyone likes to save money. Here are a few strategies to help you save on your prescriptions:

1. Consider a generic substitute, which is often less expensive than the brand-name drug.
2. Take advantage of 90-day refills, which may mean fewer trips to the pharmacy and lower copays.
3. Ask your prescriber about tablet splitting to save up to 50% on out-of-pocket costs for select medications.
4. Compare prices before you visit the pharmacy using our convenient online resources to help you save money.
